

Head Girl
Lavanya Singh

I'd like to extend my thanks to all the members of the support staff who have helped us in every single way they could. The huge smiles on their faces every day motivate me to fight my inner battles and emerge as a person who is capable of becoming the representative of thousands of Jaipurians.

I know my dear Council members that you're committed towards your work. We should promise ourselves to make the best of this year and defend the expectations of the school authorities who have given this opportunity to us for transforming the school and give it a positive lead to the best of our abilities.

Together we will shine, the sky is our limit.
