MESSAGE FROM THE PRINCIPAL

Dear School Headships

It is an honour to invite your students to ISJF, the four-day interschool festival, a celebration of talent and creativity! This student-led event aims at bringing together young curious learners to give impetus to their skills in Art, Science, Dance, Music, Computer Applications, and literary pursuits in both English and Hindi.

Participation in these diverse events is an opportunity to discover and exhibit the unique strengths and talents deep within them. Our aim is to help each student find the inner joy and perfection by immersing themselves in a skill they love.

I invite all participating schools to join us in this celebration of youthful exuberance and talent.

The events spanned over 4 days have been conceived to exhibit creativity, collaboration, and communication - skills identified by the World Economic Forum as crucial for the future workforce.

We hope you will collaborate with us to nurture the next generation of innovators, artists, and leaders who will shape the future!

Look forward to celebrating ISJF with your team.

Good wishes

Promini Chopra

MESSAGE FROM JAIPURIA FEST COORDINATOR

Dear Students,

It gives me great joy to reach out to each one of you at this pivotal moment in your educational journey. As young adults, standing at the threshold of life's larger canvas, your days are filled with decisions, dreams, doubts, and questions that are shaping your destiny. It is in this spirit that our school initiated a unique, student-led Inter School Jaipuria Fest —a platform not of competition, but of Conscious Transformation.

ISJF is not about medals, certificates, or winning over others. It is not a race. It is a mirror. A mirror held gently before you, so that you can see yourselves clearly—your talents, your fears, your strengths, your calling. It is about discovering who you truly are, and not just what you can achieve. In a world increasingly obsessed with performance, ranking, and comparison, this event gives you the freedom to simply explore and be. We have to move beyond competition otherwise, we risk losing touch with the deeper purpose of learning. Life is not just a ladder to climb—it is a landscape to explore. Whether you are inclined towards music, dance, debate, design, coding, service, organizing, or quiet introspection, you have a place here. It doesn't matter if you're the loudest voice or the silent strength—your presence will shape the event.

ISJF is a reflection of our school's pedagogy which believes in humanizing education. It is not only about individual discovery but also about building a conscious community. A space where we support each other's growth, challenge each other with kindness, and celebrate the unique rhythm of each journey.

Let us leave behind the mindset of “me versus you” and enter the field of “you and me together.” That shift is not just educational—it is evolutionary.

With deep trust in your journey,

Mrs Deepa Wahi

ISJF coordinator.

MESSAGE FROM JAIPURIA FEST STUDENT DIRECTORS

Dear Friends

It is with great pride and anticipation that we invite you to the Interschool Jaipuria Fest.

Through this fest we hope to create a space where passion and curiosity can flourish and showcase the collective potential of brilliant minds working together. We hope that here, you can discover new interests, express your unique talents and grow as an individuals not just through competition but also collaboration.

This fest brings together a diverse range of events that invite students to explore different sides of themselves- Sciencia, a world where science meets fiction and the better prevails; Sollertia, a platform to express the harmony of opposites—light and dark, order and chaos—through your own visual canvas; Meraki, an awe-inspiring fusion of language, literature and logic; Techvista, the best techfest in town with a vision to expand young minds to new horizons in the field of technology; and Jhankaar Beats, a celebration of performing arts that unveils every individual's talent, resonating with the soul and igniting pure creativity.

We invite you to step beyond your comfort zone and learn through meaningful experiences. It's not about being the best in the room; it's about showing up with sincerity, learning something new, and returning home with memories that last far beyond the final round. In a world that's changing faster than ever, we want the students to grow not just in knowledge, but in confidence, innovation, resilience, and openness.

We believe that learning does not have to be confined to classrooms. It thrives in conversations, in teamwork, in moments of trying and trying again and through this fest, we hope to offer the participants a space where they can be bold, be themselves, and most importantly, enjoy the process of becoming.

We can't wait to see what you bring to the table this year. Welcome aboard — let's make it an unforgettable experience.

JFEST DIRECTORS

Aaradhya Sharma & Akshita Agarwal
